# Beautiful Poland

The authors of this album wish to present Poland as a country with a rich tradition and impressive modern culture. To this end, the book features multiple cultural and natural sites that reflect the diversity and uniqueness of Poland. Examples of excellent architecture and magnificent nature are among the most recognisable elements of the Polish national brand.

History teaches us that architecture has always been the hallmark of society, demonstrating its values and successes. This album presents very diverse examples of ancient and new architecture, which show the rich aesthetic legacy of Polish cities and villages. Such historical sites as Wawel Castle, the Cloth Hall and St Mary's Basilica in Kraków, Książ Castle, the Wilanów Palace, the Royal Baths Park in Warsaw, as well as a number of others are certainly counted among the treasures of world civilisation. We can be also proud of the achievements of modern architecture. Such examples as modern skyscrapers in Warsaw, the Szczecin Philharmonic, or the ICE Kraków
